2.3 Services included in the payment transaction price

Exemption limit

- The exemption limit applies per customer (partner no.)/month, regardless of the number of account products according to Section 1.1
- The exemption limit includes 600 free transactions
- Further transactions (from 601 transactions) are charged at the basic price (Section 2.1)
- An unused exemption limit is not carried over to the next month

Transactions included in the exemption limit

- All electronic incoming payments (all currencies)
- Electronic outgoing domestic payments in CHF/EUR and SEPA transfer as well as group payments according to Section 2.4

Order placement and approval

- Order placement and approval of payment orders:
 - Online via eBanking/Mobile Banking incl. standing orders/account transfers/payment templates, via automated eBanking API interfaces (e.g. bLink), by file transfer via eBanking, EBICS data link and SWIFTNet services
 - Multi-banking services: according to Section 2.2.1
- eBill (electronic invoices): Approval of eBills from activated invoice issuers and online order placement via eBanking/Mobile Banking
- Execution of direct debits according to direct debit authorisation

For the execution of orders, the prices for payment transactions apply according to Section 2.1.

Settlement and advice of payment transaction prices

- Monthly settlement if a price is charged.
 - Payment transaction prices of Zürcher Kantonale Bank and PostFinance prices are shown on the same debit advice, but are posted separately.
 - Debiting and advice are carried out per account.
 - If there are several accounts, a settlement account can be defined on request. This means that the prices for payment transactions for all account products of a customer according to Section 1.1 are charged to a defined settlement account and notified in a debit advice.
-

2.4 General Information

SEPA transfers zkb.ch/sepa

- SEPA (Single Euro Payments Area) is the standardised euro payments area for banks participating in SEPA.
 - The SEPA transfer procedure (SEPA Credit Transfer) is automatically used for transfers if the following criteria are met:
 - Order placed online via eBanking/Mobile Banking with activated payment instruction “SEPA payment”
 - Order placed by means of file transfer (pain.001, SWIFT MT101, MT103) via eBanking, EBICS data link or SWIFTNet services
 - IBAN of the beneficiary
 - The financial institution of the beneficiary must be a SEPA participant
 - Transfer currency in EUR
 - Fee option “share expenses” (SHA or SLEV codes)
 - Any form of additional instructions are not permitted (e.g. OUR)
 - If the SEPA criteria are not met, the order is processed as an international payment.
 - If no SEPA transfer is requested during file transfer, the term /NONSEPA/ (with slashes) must be stated in the “Notifications to bank” field.
 - For SEPA transfers, the beneficiary bank receives the full amount of the transfer. The beneficiary may be charged a receiving price by their bank.
-

Instant payments zkb.ch/instant-zahlung-firmen (in German)

- With instant payments, customers can transfer amounts in CHF from one account to another account in Switzerland within seconds, regardless of time or day of the week.
 - For incoming instant payments, the basic price for electronic transactions with exemption limit applies (Chapter 2.1).
 - For outgoing instant payments, the basic price for electronic transactions with exemption limit applies, plus a surcharge for instant payments (Chapter 2.1).
-

Operational payment transactions

- Operational payment transactions include all creditor and debtor payments in the day-to-day business of a company.

Group payments

- Specially instructed outgoing payments within a group with electronic order placement.

PostFinance prices

- Payments at the post office counter are subject to different prices depending on the amount, e.g. counter payment fees/post-processing fees according to the PostFinance price list, which can be found on the PostFinance website.

Fee options

All fees charged to the payer (OUR, DEBT codes)

- The payer pays the price of the payment order and the price for the OUR fee option of its bank.
- Any costs incurred and third-party charges to the beneficiary bank are usually covered. In exceptions, deductions may be made.
- The beneficiary may be charged a receiving price by its bank.
- Predictable costs

Fee sharing (SHA, SHAR codes)

- The payer pays the price of the payment order charged by its bank.
- Any third-party fees incurred up to the beneficiary bank are deducted from the transfer amount.
- Costs may vary.

All fees charged to the beneficiary (BEN, CRED codes)

- The beneficiary pays the price of the payment order charged by the payer's bank.
- The price of the payer's bank and third-party fees from other banks are deducted from the transfer amount.
- Costs may vary.

International payment transactions

- The factsheet on international payment transactions is available on zkb.ch for the smoothest possible processing of international payment transactions.
- Country-specific requirements can be found in the document "Country requirements for international payments" on zkb.ch/laendervorgaben.

Cut-off times and provision of data

- The applicable cut-off times and data provision times are published on zkb.ch/annahmeschlusszeiten.
-
